

Rental & Vacation Property Cleaning Services

IN THE BUSINESS OF POSITIVE FIRST IMPRESSIONS.

We consider it our job to make sure your property is ready to impress your guests from the moment they walk in the front door. Our team of professional cleaners use a 32-point check list to ensure thorough cleaning, and they are trained to do the “little things” that make your property an inviting and warm place to be. After all, the goal is a “re-booking” of your property!

A PARTNER YOU CAN COUNT ON.

Out of state property owners need more than just a cleaning service in order to be successful—they need a partner they can count on week in and week out. A partner to look after things and to report information that could be critical. Our professional cleaners are trained to spot things such as leaky faucets and property damage. We can also be your conduit in coordinating visits to your property by contractors or other important events or tasks.

WE KEEP YOU UPDATED REGULARLY.

Communication. It's what many of our clients say that they love most about our service. A standard part of our service to you includes weekly (or monthly) status reports concerning the overall condition of your property as well as the work we performed for you. This can be sent to you via email or facsimile. Of course, if we find something that needs prompt attention we contact you immediately.

“There's only one chance to make a positive first impression. We understand how important our work is to the success of your rental business. Your guests will be thoroughly impressed with how clean your property is when they arrive.”
